```java
1 package curp;
2
3 public class Principal {
4
5     public static void main(String[] args)
6     {
7         // TODO Auto-generated method stub
8         CURP curp1 = new CURP("oooolguin", "jose Jesus");
9         System.out.println(curp1.ComprobarConsonante(curp1.apeP,0));
10        System.out.println(curp1.posCApeP);
11        System.out.println(curp1.ComprobarConsonante
   (curp1.apeP,curp1.posCApeP));
12        System.out.println(curp1.posCApeP);
13    }
14
15 }
16
```
